The Princeton Review will be sharing information on the importance of planning early for life after high school.

“We can get you there”

This program will help students and parents make choices in middle and high school that lead to college and beyond.

Don't miss this great program!!

The Gear Up Appalachian Partnership is a research-based college access program serving students, their families, and educators in middle and high schools across the Western North Carolina region. Since 1999, the Gear Up Appalachian Partnership has served over 17,000 students and their families in 31 school across the region.
